🌐 Udoy Majumder 📁 Udoy Majumder Portfolio

SUMMARY

Product and UX designer with **4+** years of end-to-end experience shipping mobile-first products at scale, including a Video downloader app 📱 with **100M+ downloads** with **4.6** rating and a portfolio of live products (Tagcam, Cordia, Sphoire, Epicnap) with a **combined valuation of 700M+** and **100M+ ARR**. Comfortable working across the design-to-code boundary — mapping states and edge cases, preparing build-ready handoff documentation, and prototyping with AI-assisted tools (Claude, Figma AI, Figma Make) to validate product decisions before development. Led **150+** projects and a cross-functional team of **13 designers** and **5 developers** serving global clients across startup and agency environments, growing from individual contributor to associate project manager.

PROFESSIONAL EXPERIENCE

Opedia Technologies Ltd. 📍, Senior UI UX Designer

09/2023 – Present | Dhaka, Bangladesh

- Own end-to-end delivery of **150+ projects** for global clients leading a cross-functional team of **13 designers and 5 developers** from discovery to production.
- Shipped Tagcam 📱, Cordia 📱, Epicnap 📱, and a Video downloader 📱 application rated **4.6★ with 100M+ downloads** contributing to a portfolio with **700M+ valuation and 100M+ ARR**.
- Use Figma as primary design and prototyping tool daily; incorporate AI-assisted tools (Claude, Figma AI, Figma Make) into ideation, wireframing, and documentation to accelerate design exploration while maintaining design quality control.
- Prototyped Cordia's core flows for user testing and iterated the design based on test results before final build — including flow, state, and interaction changes.
- Prepare technical documentation and handoff specs for developers across active projects, translating design decisions into build-ready detail.
- Designed 2 internal enterprise platforms (farming and staff management) deployed and actively used by clients.
- Promoted to team lead within a year and half, **supervised 13 designers** and owned design quality from handoff to production.
- Introduced a client communication and growth monitoring framework that reduced scope misalignment across active projects.
- Awarded **Client Maestro** and **The Multitasker** internal recognition for client excellence and delivery across simultaneous projects.

Squadin 📍, Product Designer

01/2023 – 11/2023 | Albania

- Rethought the booking flow based on user research moving venue selection to the final step cut cancellations by **30%**.
- Introduced venue categorization and last-hour offers, lifting retention by **25%** within 3 months of launch.
- Mapped user flows against edge cases and contributed to developer-facing documentation, working directly with the product manager to confirm technical feasibility ahead of handoff.
- Designed the opponent and player request system the core social mechanic that drove initial user acquisition on the platform.

Rokon Tourism , UI UX Designer

03/2022 – 12/2022 | Dhaka, Bangladesh

- Redesigned the website structure and led conversion-focused improvements growing monthly customer conversions from **8 to 40** and increasing average session time by **30%**.
- Contributed to marketing strategy alongside design, directly connecting UX decisions to business outcomes.

EDUCATION

World University of Bangladesh

12/2024 – Present | Dhaka, Bangladesh

BSc in Computer Science and Engineering

Builds a technical foundation in software systems and data structures. enabling closer collaboration with engineering teams and more informed design decisions at the architecture level.

Govt. Graphic Arts Institute

06/2017 – 12/2023 | Dhaka, Bangladesh

Diploma in Graphic Design Technology

Grounded in visual communication and design principles, with a specialization in product design, forming the aesthetic and structural foundation that underpins every UX decision I make.

SKILLS

- **Design tools:** Figma (primary, daily driver), Figma AI, Figma Make.
- **AI-assisted design workflow:** Claude, ChatGPT used regularly for research synthesis, ideation, prototyping support, and documentation, always paired with human review for usability and accessibility.
- **Product thinking:** Problem framing, retention strategy, conversion optimization, metric-driven design decisions
- **Process:** End-to-end product design, design system ownership, sprint planning, technical documentation for handoff, production readiness review.
- **Research:** User interviews, usability testing, competitive analysis, A/B testing, synthesis
- **Design engineering:** Working knowledge of HTML5/CSS3; reads and works within Tailwind CSS, ShadCN, and Bootstrap 5 codebases to design within real technical constraints; experience mapping states and edge cases for engineering handoff.
- **Leadership:** Cross-functional team leadership, design critique facilitation, stakeholder alignment.
- **Communication:** Global client management, scope definition, cross-cultural stakeholder communication.

CERTIFICATES

Google UX Design Professional Certificate (Formalized core UX competencies from user research and wireframing to prototyping and design critique, directly reinforcing the end-to-end process applied across my product work.)

AWARDS

Client Maestro, Opedia Technologies Ltd.

31/01/2025

Awarded for outstanding client relationship management and delivery excellence, leading a team to **50+ successful project completions** in a single year through clear communication, stakeholder alignment, and consistent on-time delivery.

The Multitasker, *Opedia Technologies Ltd.*

01/01/2026

Recognized for leading **70+ project deliveries** while simultaneously driving internal culture initiatives, organizing company programs, contributing creative ideation, and maintaining delivery standards across a cross-functional team.
